

Instruction Sheet

Thank you for purchasing the support handle. Please read the following instructions for your safety and to learn of the features of this product.

1. Remove support handle cap by unscrewing the cap in a counter clockwise direction.
2. Insert the two AA-size batteries into the support handle with the positive side of the batteries pointing toward the cap of the support handle.

3. Replace the support handle cap by screwing the cap in a clockwise direction.

NOTE: Screw the cap in a clockwise direction until the flashlight turns on and then unscrew the cap in a counter clockwise direction until the flashlight turns off (this should only be a few turns). This is how you turn the flashlight on and off. IF YOU DO NOT TURN FLASHLIGHT OFF, THE BATTERIES WILL DRAIN.

4. Install the support handle into your car door latch as shown in the pictures below.

IMPORTANT: Do not attempt to insert the support handle into the car door latch in any other direction other than as shown in the above pictures. Failure to do so may cause injury and could possibly damage your car door latch. THE FLASHLIGHT SHOULD POINT TOWARD THE FRONT OF YOU CAR.

Notice the picture below represents the support handle and car door latch in a side view so you can see how the notch of the support handle is inserted into car door latch at the proper depth. This proper engagement is critical for your safety before applying any downward force on the handle.

WARNING: Please read before using this product.

1. Serious injury or death can result if the support handle is not properly installed. Standers Inc. is committed to providing safe products and informing the user of ways to prevent accidents.
